

CURRICULUM VITAE

Date Updated: January 15, 2008

Name: David Patrick Mooney, M.D., M.P.H.

Office Address: Fegan 340
300 Longwood Avenue
Boston, MA 02115
617/ 355- 0535

Email: david.mooney@childrens.harvard.edu

Education:

2006	M.P.H.	Harvard University School of Public Health
1981- 1985	M.D.	St. Louis University School of Medicine
1977- 1980	A.B.	St. Louis University

Postdoctoral Training:

1991- 1993	Resident	Pediatric Surgery	Children's Mercy Hospital Kansas City, Missouri
1987- 1988	Fellow	Surgical Immunology	University of Vermont Burlington, Vermont
1988- 1991	Resident	General Surgery	Medical Center Hospital of Vermont, Burlington, Vermont
1986- 1987	Resident	General Surgery	Medical Center Hospital of Vermont, Burlington, Vermont
1985- 1986	Intern	General Surgery	Medical Center Hospital of Vermont, Burlington, Vermont

Licensure and Certification:

1990	Vermont Medical License
1993	New Hampshire Medical License
1995	Massachusetts Medical License
1993, 2002	American Board of Surgery, General Surgery
1996, 2003	American Board of Surgery Special Qualifications in Pediatric Surgery
1994-	Advanced Cardiac Life Support, Provider
1993-	Advanced Trauma Life Support, Instructor
1996-1999	Course Director
1995-1999	Advanced Pediatric Life Support Course Director
1993-	Pediatric Advanced Life Support-Instructor
1997-1999	New England Regional Faculty

Academic Appointment:

1999- Assistant Professor of Surgery Harvard Medical School

Administrative Responsibilities:

1995-1999 Coordinator, Surgical Grand Rounds Dartmouth Medical School
1999- Director, Trauma Program Children's Hospital Boston

Committee Assignments at Children's Hospital Boston:

1999- Chair Trauma Performance Improvement
1999- Co-Chair Code Triage Committee
2000- Member Surgical Clinical Practice Committee
2000- Member Committee on Clinical Investigation (IRB)
2002- Member Pharmacy and Therapeutics Committee
2003- Member Emergency Management Steering Committee
2004- Member Community Advisory Board
2005- Member Resuscitation Review Committee
2005- Member CHAMPS Computerized Medical Record
2006- Member Consult Policy Committee
2006- Member Informed Consent Process Review
2007- Member Residency Orientation Committee
2007- Member SBAR Committee

Regional:

1997-99 Advisory Board, New Hampshire Crash Emer. Medical Services Bureau
Outcome Data Evaluation System Grant New Hampshire State Gov.
1996-1999 New Hampshire Medical Control Board Health and Human Services
New Hampshire State Gov.
1996-1999 Chair, Committee on Trauma New Hampshire Chapter
American College of Surgeons
1998-1999 State Trauma System Site Visitor Emer. Medical Services Bureau
New Hampshire State Gov.
2000- Pediatric Resources Group Office of Emer. Med. Services
Emer. Medical Services for Children Massachusetts State Gov.
2000-4 Member Massachusetts State Trauma
Committee
2000-2006 Board of Directors Metropolitan Boston
Emerg. Medical Services, Inc.
2001- Committee on Trauma Massachusetts Chapter
American College of Surgeons
2001- Member, Advisory Committee Harvard Injury Control Center
2006- Member Massachusetts Injury Community
Planning Group
2005-7 Member Scientific Steering Committee
Seat Belt Use Investigation

2006-2007-	Member, Advisory Board Member	Boston University Fire Safe Massachusetts New Massachusetts State Trauma Committee
National:		
1998	Grant Reviewer	Maternal Child Health Bureau Em. Med. Services for Children
2000	Pelvic Fracture Outcome Study	APSA Trauma Committee
2000-	Pediatric Site Reviewer	PA Trauma Systems Foundation
2000	Invited Discussant	National Pedi Trauma Registry Maternal Child Health Bureau
2000-	Active Member	Committee on Trauma American College of Surgeons
2001-	Pediatric Subcommittee	Committee on Trauma American College of Surgeons
2001-03	Resources ad hoc Subcommittee	Committee on Trauma American College of Surgeons
2003-	Pediatric Trauma Systems Consultant	National Resource Center Emer Med Services for Children
2004-	Member	Verification Review Committee Committee on Trauma American College of Surgeons
2004	American College of Surgeons' Liaison	Committee on Pedi Emerg. Med. American Academy of Pediatrics
2004-6	Vice Chair	Trauma Committee Amer. Pediatric Surgical Assoc.
2005-	Member, PFC Stakeholders Group	Emergency Medical Services for Children
2006-	Scientific Reviewer	EMSC Pediatric Sedation Panel
2006-	Advisory Board Member	Kiwanis Pediatric Trauma Registry
2006-8	Chair	Trauma Committee Amer. Pediatric Surgical Assoc.
2007	Member, Pediatric Trauma Systems Outcomes Study Design Panel	Emergency Medical Services for Children
Professional Societies:		
1993-	American Academy of Pediatrics Section on Surgery	Member
	Section on Epidemiology	Member
1994-	American College of Surgeons	Fellow
Professional Societies (continued):		
1996-	American Pediatric Surgical Assoc.	Member
1998-	Eastern Assoc. for the Surgery of Trauma	Member
1999-	Boston Surgical Society	Member
2005-	New England Surgical Society	Member

Narrative Report:

I am a full time pediatric surgeon with a particular research and clinical interest in the field of childhood injury. Injury remains the number one health problem facing children in our nation, each year responsible for more deaths and disabilities than all other causes combined. The components of my practice, which deal with pediatric injury, include clinical care, research, teaching and injury prevention.

As the Director of the Trauma Program at Children's Hospital Boston, I oversee the activities of one of the nation's busiest pediatric trauma clinical services. I am responsible for the clinical care provided to trauma patients in every area in the institution and regularly analyze each element of their care to disclose areas of potential improvement. Records on nearly 1,000 injured children per year are reviewed. I provide the direct care to patients with multiple injuries or those with injuries typically cared for by general surgeons.

I conduct a number of research projects, all directed toward finding the best ways to care for injured children. I have developed a unique population-based childhood injury dataset, the New England Pediatric Dataset. Analysis of this resource has disclosed variation in the management of children with splenic injuries in northern New England, depending upon the training of the treating physician. Further analysis of this dataset has demonstrated marked changes in the management of injured children over the past decade, and its contents will be used to direct future pediatric trauma system development.

I have served as the Chair of the Trauma Committee of the American Pediatric Surgical Association for the past 2 years and have directed the metamorphosis of that group into a multi-center study group focused on pediatric injuries and their management. In the first study, data from 20 Children's hospitals is being accrued and a second study is currently in the design phase.

I participate in teaching on a daily basis. All of my patient care is done in conjunction with pediatric surgical fellows, housestaff and medical students. This is done in the Emergency Department, patient bedside and in the operating room. In addition, I actively participate in educational programs for community physicians, nurses, and paramedics.

Injury prevention efforts are done in cooperation with the Community Benefits Department of the Children's Hospital Boston and the development and dissemination of injury prevention materials to the public. A study of childhood injury in the city of Boston is underway to best direct prevention efforts. Also, I routinely provide public information concerning childhood injury and its prevention to the media.

Central nervous system injury is the primary etiology of death in injured children and current management techniques have little effect. I have spearheaded the development of a Brain Trauma Program at Children's Hospital Boston to optimize the management of these children through an evidence-based plan of care, translational research into new management strategies, education concerning their care and a directed prevention program.

In addition, participate in several local, regional and national committees related to childhood injury. Local committees include the Board of Directors of the Boston Metropolitan Emergency Medical Services and its Trauma Subcommittee. Regional committees include the Massachusetts State Trauma Committee and the Committee on Trauma of the Massachusetts chapter of the American College of Surgeons. National committees include the Committee on Trauma of the American College of Surgeons.

Other Duties:

1987-2002	U.S. Army Medical Reserves	Major (ret.)
2002-	National Disaster Medical System International Med/Surg Response Team Pediatric Surgical Team-1	Member

Editorial Boards:

1995	Reviewer	Current Surgery
2000-	Reviewer	Journal of Pediatric Surgery
2000-	Reviewer	Annals of Emergency Medicine
2003-	Reviewer	Pediatric Emergency Care
2004-	Reviewer	Journal of Trauma
2004-	Reviewer	Pediatrics
2005-	Reviewer	Journal of the Am. Med. Assoc.
2005-	Reviewer	Journal of the Am. Coll. Surg.
2005-	Reviewer	New England Journal of Med.
2007-	Section Editor	Up to Date

Research Funding:

1994-1996	Maternal Child Health Bureau \$150,000/year for 2 years	Co-PI	Special Kids Emergency Information Project
