

Pediatric Specialist Guide

A referral guide for health care providers

James Kasser, MD

Children's Hospital Boston

2009-2010

CHILDRENSHOSPITAL.ORG

HEMATOLOGY/ONCOLOGY

Children's Hospital Boston's Division of Hematology/Oncology provides comprehensive treatment for children with all forms of malignant disease, as well as rare hematology disorders.

In partnership with Dana-Farber Cancer Institute (DFCI), Dana-Farber/Children's Hospital Cancer Care (DF/CHCC) combines the pediatric subspecialty expertise and facilities at Children's with the programs of one of the country's highest ranked National Cancer Institute Comprehensive Cancer Centers. This unique structure gives patients with all types of malignant childhood diseases unparalleled access to the medical care they need to combat their complex conditions. Pediatric experts from all of Children's medical specialty areas are part of the oncology team, including pathology, surgery, neurosurgeon, and radiation oncology. The laboratory and clinical scientists on our team have developed aggressive cancer treatments and new chemotherapeutic approaches. DF/CHCC is also home to one of the most accomplished pediatric programs in Hematopoietic Stem Cell Transplantation (sometimes referred to as Bone Marrow Transplantation) in the world.

Children's, in association with DFCI, is also home to the Louis K. Diamond Hematology Program, internationally recognized as a preeminent pediatric center for the evaluation and care of patients with non-malignant blood disorders, including anemias, bleeding problems, blood clots, bone marrow failures, platelet disorders (including ITP) and white blood cell disorders.

The division has expertise in the following areas:

- alpha thalassemia
- aplastic anemia
- brain tumors
- Burkitt's lymphoma
- Ewing's sarcoma
- Fanconi anemia and bone marrow failures
- Gaucher disease
- hepatoblastoma
- hepatocellular carcinoma
- Hurler's syndrome
- ITP/platelet disorders
- Kostmann syndrome
- leukemia
- lymphoma
- myelodysplastic syndrome
- neuroblastoma
- non-malignant blood disorders
- osteosarcoma
- pheochromocytoma
- retinoblastoma
- rhabdomyosarcoma
- severe combined immunodeficiency (SCID)
- sickle cell disease
- soft tissue sarcomas
- stem cell transplantation
- thalassemia
- thyroid carcinoma
- tumors (brain, desmoid, germ cell)
- Wilms' tumor
- Wiskott-Aldrich syndrome

CENTERS-OF-EXCELLENCE AND CLINICAL PROGRAMS:

Brain Tumor Program

Dana-Farber/Children's Hospital Cancer Care's (DF/CHCC) Pediatric Brain Tumor Program is one of the world's leading programs caring for children and adolescents with brain cancer. Neuro-oncology staff offer advanced therapies, including access to an MRI which lets surgeons scan patients before completing surgery to obtain the most precise and complete tumor resection. Specialized long-term follow-up care is provided through the Stop & Shop Family Pediatric Neuro-Oncology Outcomes Clinic at DFCI. Scheduling: 617-632-2680

David B. Perini, Jr. Quality of Life Clinic

The David B. Perini, Jr. Quality of Life Clinic at DFCI is a specialized program within DF/CHCC providing consultative care for childhood cancer survivors of any age. Scheduling: 617-632-5124

Fanconi Anemia and Bone Marrow Failure Multidisciplinary Clinic

This multidisciplinary team provides compassionate and patient and family-centered care to young patients with Fanconi anemia and bone marrow failure syndromes.

For more information, call 1-800-355-7944 or visit www.childrenshospital.org

1

Scheduling: 617-919-2697, fa-bmf@childrens.harvard.edu

Hematology Program

Provides care and consultation regarding non-malignant blood disorders, including anemias, bleeding problems, blood clots, platelet disorders, and white blood cells.
New patient scheduling: 617-355-8893
Established patient scheduling: 617-355-8246

Hemophilia

Children's is the pediatric site of the Boston Hemophilia Center, the largest hemophilia program in New England. As a federally funded hemophilia treatment center and joint program with Brigham and Women's Hospital, the program provides comprehensive care to people with hemophilia and other bleeding disorders.
Scheduling: 617-355-4977

Leukemia Program

Offered through DF/CHCC, our leukemia experts provide comprehensive, multidisciplinary diagnosis, treatment and consultation services, as well as long-term follow-up for pediatric and adolescent patients with hematologic malignancies.
Scheduling: 1-888-PEDI-ONC (733-4662) or 617-632-5508

Lymphoma Program (Hodgkin's and non-Hodgkin's)

Offered through DF/CHCC, this program provides comprehensive, multidisciplinary diagnosis, treatment and consultation services, as well as long-term follow-up for pediatric and adolescent patients with any type of Hodgkin's and non-Hodgkin's lymphoma.
Scheduling: 1-888-PEDI-ONC (733-4662) or 617-632-5508

Myelodysplastic Syndrome Program

Provides expert diagnostic and treatment options for children with myelodysplastic syndrome (MDS), a blood disorder that develops in the bone marrow and prevents the body from producing enough healthy blood cells. Please schedule new patients with known or suspected MDs through the hematology program. In conjunction with the HSCT program the disease specific hematologist for MDs will determine if a direct referral to the Pediatric Stem Cell Transplantation Program is appropriate for patients with a confirmed diagnosis of MDs and indication for hematopoietic stem cell transplantation.

Oncology Program

DF/CHCC offers many specialized services for children and adolescents with all forms of malignant disease.
Scheduling: 1-888-PEDI-ONC (733-4662) or 617-632-5508

Pediatric Advanced Care Team (PACT)

Comprised of members from Children's Hospital Boston and Dana-Farber Cancer Institute, the PACT collaborates with a patient's primary health care team to provide palliative care treatments intended to optimize the quality of life, promote healing and comfort for children with life-threatening illness. Some of the support they provide includes optimizing pain and symptom management, advocating family and health care provider communication and coordinating inpatient, outpatient and home care.
Scheduling: 617-632-5042

Sickle Cell Program

Provides consultation for the diagnosis, treatment and health maintenance of children and young adults with sickle cell anemia. The program is also a clinical core for the Boston Comprehensive Sickle Cell Center.

Solid Tumors Program

Offered through DF/CHCC, this program provides comprehensive, multidisciplinary diagnosis, treatment and consultation services, as well as long-term follow-up for pediatric and adolescent patients with any type of solid tumor. Some of the conditions treated through this program include liver tumors, kidney tumors, neuroblastoma, rhabdoid tumors, sarcomas and Wilms Tumor, among others.
Scheduling: 1-888-PEDI-ONC (733-4662) or 617-632-5508

Stem Cell Transplantation Program

DF/CHCC's Pediatric Stem Cell Transplantation Program provides care and consultation regarding the use of stem cell transplantation as a therapy for patients with various forms of pediatric cancer and non-malignant blood disorders. The program also provides comprehensive evaluation and care services for patients who have previously undergone stem cell transplantation.
Scheduling: 617-632-3961

White Blood Cell Disorders Program

The White Blood Cell Disorders Program at Children's Hospital Boston provides comprehensive treatment for people with non-malignant white blood cell disorders. Schedule new patients through the Hematology Program.

HEMATOLOGY/ONCOLOGY

Inpatient care and other specialty care are provided at Children's Hospital Boston. Children's Hematology Program sees patients at our Boston campus on the sixth floor of the Fegan Building and at our offices in Lexington and Waltham. Outpatient oncology services are provided at the Jimmy Fund Clinic on the third floor of Dana-Farber Cancer Institute.

| COMMUNITY | LOCATION | SCHEDULING |
|-----------------------|---|--|
| Hematology | | |
| Boston | Children's Hospital Boston 300 Longwood Avenue, Fegan-6 | 617-355-8246 |
| Lexington | Children's Hospital Boston at Lexington 482 Bedford Street | |
| Waltham | Children's Hospital Boston at Waltham 9 Hope Avenue <i>For new patients please fax laboratory studies and reason for referral to 617-730-0641 before calling.</i> | |
| Oncology | | |
| Boston (Inpatient) | Inpatient Oncology Children's Hospital Boston 300 Longwood Avenue | 617-632-5000 |
| Boston (Outpatient) | Outpatient Oncology (New patients) Dana-Farber Cancer Institute 44 Binney Street, 3rd Floor | 888-PEDI-ONC (733-4662) or 617-632-3971 |
| | Jimmy Fund Clinic (Established patients) | 617-632-3270 |
| Boston (Survivorship) | Oncology Survivorship Services Dana-Farber Cancer Institute David B. Perini, Jr. Quality of Life Clinic | 617-632-5124 |
| | Stop & Shop Neuro-Oncology Outcomes Clinic | 617-632-2680 |

To make an appointment with Dana-Farber/Children's Hospital Cancer Care specialists or to schedule a "new" or "established" Hematology patient, please call the appropriate telephone number above.
