## **OTOLARYNGOLOGY AND COMMUNICATION ENHANCEMENT**

Children's Hospital Boston's Department of Otolaryngology (ORL) and Communication Enhancement is the oldest, largest and most recognized center for pediatric otolaryngology in the United States. Staffed by dedicated, board-certified otolaryngologists, audiologists, speech and language pathologists and educators, the department provides expert diagnosis and surgical treatment to children and adolescents with disorders of the head and neck, including ears, nose, sinus, throat and vocal cords and air and food passages. Other services include the evaluation and rehabilitation of children with hearing, voice and speech disorders.

Caring for an average of 43,000 outpatient visitors annually and performing more than 6,000 surgical procedures each year, Children's is one of the largest pediatric ORL programs in the world.

The department has expertise in the following areas:

- **cochlear implants**
- **congenital laryngeal stridor/laryngomalacia**
- **deafness**
- **hearing loss**
- **hemangioma**
- **hoarseness**
- **myringotomy tubes**
- **obstructive sleep apnea**
- **otitis externa (swimmer's ear)**
- **otitis media (middle ear infection)**
- **sinusitis**
- **speech, language and hearing development problems**
- **stridor**
- **tonsillectomy and adenoidectomy**

### **CLINICAL PROGRAMS:**

#### **Center for Aero-Digestive Disorders (CADD)**

This multidisciplinary center comprised of physicians from Gastroenterology, Respiratory Diseases and Otolaryngology, treats children with a range of complex problems involving the airway, pulmonary and upper digestive tract.

Otolaryngology: 617 355 3795

Gastroenterology: 617-355-6055

Respiratory: 617-355-1900

#### **Center for Head, Neck and Skullbase Tumors**

Provides comprehensive care and consultation for patients with congenital anomalies and benign and malignant tumors of the head and neck. Working together with clinicians and researchers at the Dana-Farber Cancer Institute and Harvard Medical School, the center is dedicated to advancing the understanding, diagnosis, treatment, cure and prevention of head and neck tumors.

Scheduling: 617-355-6462

#### **Center for Sinus Surgery**

Offers the latest medical and surgical techniques in treating all types of sinus problems from simple infections to complex anatomical anomalies and tumors. Specific medical conditions, such as cystic fibrosis, are managed in collaboration with a pulmonologist.

Scheduling: 617-355-6460

#### **General Otolaryngology Program**

Provides diagnostic evaluation and surgical therapy for patients with diseases or conditions of the head and neck, including the ear, nose and throat.

Scheduling: 617-355-6462

#### **Voice & Velopharyngeal Dysfunction Center**

Evaluates children with voice disorders and/or disorders of the velopharyngeal closure. After making an accurate diagnosis, recommendations are made for management of the problem, which may include voice/speech therapy, medical treatment, as well as surgical intervention.

Scheduling: 617-355-5116

### **CENTER FOR COMMUNICATION ENHANCEMENT (CCE):**

#### **Augmentative Communication Program**

Provides evaluation and rehabilitation of children and adults who are non-speaking or whose speech is severely impaired. Using a variety of assistive technologies, such as "talking computers" and voice synthesizers, Children's program enables non-speaking children to communicate.

Scheduling: 781-216-2209

**Autism Language Program (ALP)**

Helps children diagnosed with an autism spectrum disorder communicate and learn more effectively. We consider all forms of communication including spoken, written, gestural (sign) and visual (use of graphic symbols). Patients and families are given a communication plan with recommendations tailored to the patient's interests and needs, usually including suggestions for both school and home.

Scheduling: 781-216-2209

**Deaf and Hard of Hearing Program**

Provides comprehensive evaluation and consultative services to deaf and hard of hearing children. By assessing a child's cognitive, social, social, emotional, speech, language and auditory skills, the program assists in planning the child's educational, health care and therapeutic needs.

Scheduling: 781-216-2215

**Diagnostic Audiology Program**

Offers comprehensive, expert evaluation and management of various degrees of hearing loss in infants, children and adolescents. Using audiograms, tympanograms and behavioral audiometry, Children's audiology team identifies ways for children to enhance their communication skills.

Scheduling: 617-355-6461

**Habilitative Audiology Program**

As the largest pediatric program in New England, it provides advanced hearing technology for children with permanent hearing loss. Patients are evaluated by a multidisciplinary team comprised of cochlear implant surgeons, audiologists, psychologists, speech and language pathologists, educators of the deaf and other specialists.

Scheduling: 781-216-2250

**Speech-Language Pathology Program**

Treats children and adolescents with a variety of communicative disorders, including children who have difficulties with language, articulation, voice, resonance and swallowing. Using a variety of therapeutic methods, such as group speech/language therapy and psychotherapy, Children's Speech-Language Pathology Program enables children to maximize their communicative abilities.

Scheduling: 781-216-2237

The Department of Otolaryngology and Communication Enhancement has offices at our Boston campus on the third floor of 333 Longwood Avenue with select services offered in the following communities throughout Greater Boston:

COMMUNITY	LOCATION	SCHEDULING
Boston	Children's Hospital Boston 333 Longwood Avenue, 3rd Floor	617-355-6462
Lexington	Children's Hospital Boston at Lexington 482 Bedford Street	617-355-6462 or 617-672-2100
Peabody	Children's Hospital Boston at Peabody One Essex Center Drive	617-355-6462 or 978-536-3600
Waltham	Children's Hospital Boston at Waltham 9 Hope Avenue	617-355-6462
Weymouth	851 Main Street	617-355-6462 or 781-331-4715

To make an appointment at any of our office locations, please call the appropriate scheduling office telephone number above or visit [childrenshospital.org/oto](http://childrenshospital.org/oto) and select Request An Appointment.

**Urgent Appointment Triage**

**Audiology:**

617-355-6461 or 617-244-5697, to discuss the urgency of the case with a coordinator

**Otolaryngology:**

617-355-7147
